SATORI Final Conference

Ethics Assessment of Research and Innovation: Looking to the Future

Programme – Monday September 18, 2017

Plenary host: Mr. Rasmus Øjvind Nielsen

10.00	Arrival, registration and coffee	(Lobby A)
10.30	Welcome and introduction to the SATORI project <i>Philip Brey & Isidoros Karatzas</i>	(Europe B, Plenary Hall)
11.10	Keynote: Toward an Ecocentric Ethics of Research and Innovation, and other remarks <i>Marie-Hélène Parizeau</i>	(Europe B, Plenary Hall)
11.40	Research ethics and ethics of innovation: current issues <i>Chair: Philip Brey</i>	(Europe B, Plenary Hall)
12:30	Lunch Break	(Restaurant A)
13.30	Ethics of research and innovation: EU and national policies <i>Chair: Rowena Rodrigues</i>	(Europe B, Plenary Hall)
14.50	Coffee Break	(Lobby A)
15.15	A standard for ethics assessment of research and innovation <i>Chairs: Marlou Bijlsma, Philip Brey & Thamar Zijlstra</i>	(Europe B, Plenary Hall)
16:15	Coffee break	(Lobby A)
16:30	Parallel Sessions	
	Session A: Standards and best practices for ethics committees <i>Chairs: Marlou Bijlsma & Thamar Zijlstra</i>	(Room Budapest)
	Session B: Strengthening ethics assessment and guidance at the EU and international level <i>Chair: Robert Braun</i>	(Europe B, Plenary Hall)
	Session C: Science Journalism and ethics of research and innovation <i>Chairs: Daniela Ovadia and Dino Trescher</i>	(Room Copenhagen)
18.00	Poster Session	(Lobby A)
20.00	Conference Dinner	(more information on the last page)

SATORI Final Conference

Ethics Assessment of Research and Innovation: Looking to the Future

Programme – Tuesday September 19, 2017

Plenary host: Mrs. Rowena Rodrigues

9.00	Arrival, registration and coffee	(Lobby A)
9.30	SATORI project: Main results* <i>Philip Brey</i>	(Plenary Hall Europe B)
	<i>*Session intended for those who are only participating Tuesday September 19</i>	
10.00	Keynote Awareness of ethics, a challenge for science <i>Julian Kinderlerer</i>	(Plenary Hall Europe B)
10.50	Coffee Break	(Lobby A)
11.15	Parallel Sessions	
	Session A: Ethical assessment and guidance at universities <i>Chair: Rasmus Øjvind Nielsen</i>	(Room Copenhagen)
	Session B: Ethical assessment and guidance in industry <i>Chair: Agata Gurzawska & Andrea Porcari</i>	(Plenary Hall Europe B)
12.45	Lunch Break	(Restaurant A)
13.45	Parallel Sessions	
	Session A: Ethical Impact Assessment – working with the CEN standard <i>Chair: Wessel Reijers</i>	(Plenary Hall Europe B)
	Session B: Medical and life sciences <i>Chair: Daniela Ovadia</i>	(Room Budapest)
	Session C: Social sciences and humanities <i>Chair: Rok Benčin</i>	(Room Copenhagen)
14:45	Parallel Sessions	
	Session A: Engineering & information sciences <i>Chair: Göran Collste</i>	(Room Budapest)
	Session B: Globalization and ethics assessment <i>Chair: Faridun Sattarov</i>	(Plenary Hall Europe B)
15.45	Coffee Break	(Lobby A)
16.00	Round table and moving forward <i>Chair: Philip Brey</i>	(Plenary Hall Europe B)
16.30	Closing of day 2 and end of conference

SATORI Final Conference

Ethics Assessment of Research and Innovation: Looking to the Future

Detailed programme - Keynotes

Keynote: **Toward an Ecocentric Ethics of Research and Innovation, and other remarks**

Speaker: **Marie-Hélène Parizeau**, Chair of World Commission on the Ethics of Scientific Knowledge and Technology (COMEST), Professor, Université Laval, Canada

When: *11:10, September 18, 2017, Plenary Hall Europe B*

Abstract

In this somewhat provocative keynote, Professor Marie-Hélène Parizeau will provide an insightful analysis of the findings and proposals of the SATORI project. Professor Parizeau will offer a constructive commentary on the SATORI ethics assessment framework as an important effort to give a general ethical framework to research and innovation in Europe.

About the keynote speaker:

Marie-Hélène Parizeau is Chair of World Commission on the Ethics of Scientific Knowledge and Technology (COMEST). She is Professor, Faculty of Philosophy, at the Université Laval, Canada. Marie-Hélène Parizeau received her PhD 1988 at the University Paris XII, Créteil, Val-de-Marne in 1988, under the instruction of Anne Fagot-Largeault.

Keynote: **Awareness of ethics, a challenge for science**

Speaker: **Julian Kinderlerer**, emeritus Professor of Intellectual Property Law, University of Cape Town, South Africa

When: *10:00, September 19, 2017, Plenary Hall Europe B*

Abstract:

Do researchers really need to be aware of ethical issues when doing research? Has science research always been ethical? And why is Europe (arguably) more aware of ethical issues than many other research communities? Is 'ticking boxes' just paying lip service to the ethical issues or are researchers really committed?

About the keynote speaker:

Julian Kinderlerer, emeritus Professor of Intellectual Property Law at the University of Cape Town and newly appointed member of the European Group on Ethics in Science and New Technologies (EGE), will share his longstanding experience in the building of the ethical framework for research and innovation in Europe to tackle some of the main challenges and issues.

SATORI Final Conference

Ethics Assessment of Research and Innovation: Looking to the Future

Detailed programme – Plenary talks

Plenary talk: Research ethics and ethics of innovation: current issues

Chair: Philip Brey, professor of philosophy of technology, Department of Philosophy, University of Twente

Speakers: Dirk Lanzerath, Executive Manager of the German Reference Centre for Ethics in the Life Sciences (DRZE), and General Secretary of the European Network of Research Ethics Committees (EUREC) & Jeroen van den Hoven, Full professor of Ethics and Technology at Delft University of Technology and member of the Ethics Advisory Group to the European Data Protection Supervisor (EDPS) and of the European Group on Ethics in Science and New Technologies in Brussels

When: 11:40, September 18, 2017, Plenary Hall Europe B

Plenary talk: Ethics of research and innovation: EU and national policies

Chair: Rowena Rodrigues, senior consultant, Trilateral Research Ltd

Speakers: Louiza Kalokairinou: Policy Officer, Ethics & Research Integrity sector, DG Research & Innovation, European Commission; Jim Dratwa: European Commission Head of the European Group on Ethics in Science and New Technology; Lieve Van Woensel: Head of the Scientific Foresight Service within the European Parliamentary Research Service, & Rene von Schomberg, European Commission, research and innovation policy

When: 11:40, September 18, 2017, Plenary Hall Europe B

SATORI Final Conference

Ethics Assessment of Research and Innovation: Looking to the Future

Detailed programme – Parallel sessions, September 18, 16:30-18:00

Parallel session A: Standards and best practices for ethics committees

Chairs: Marlou Bijlsma & Tamar Zijlstra, The Netherlands Standardization Institute (NEN)

Panel: **Tapani Keränen**, Chair, TUKIJA National Committee on Medical Research Ethics & **Jacob Hølen**, Director of The National Committee for Medical and Health Research Ethics (NEM), Norway

When: 16:30-18:00, September 18, 2017, (*Breakout Room Budapest*)

Abstract: CWA 17145-1 provides organisations guidance on the role, composition and functioning of an ethics committee, including quality management. It can be used for setting up an ethics committee but equally improving the functioning of an existing committee.

Relevant SATORI Deliverables:

[First international pre-standard \(CEN Workshop Agreement 17145-1\)](#) – part 1: A practical tool to implement ethics assessment*

[First international pre-standard \(CEN Workshop Agreement 17145-2\)](#) – part 2: The SATORI Ethical Impact Assessment

**Including correction note*

Parallel session B: Strengthening ethics assessment and guidance at the EU and international level

Chair: Robert Braun, Institute for Advanced Studies, Vienna

Panel: **Dafna Feinholz**, Chief of the Bioethics and Ethics of Science section of the Social and Human Sciences sector of UNESCO; **Marjo Rauhala**, Senior Researcher and Ethics Officer at the Technical University Vienna; **Richard Stevens**, coordinator of DC, E-sides (Ethical and Societal Implications of Data Sciences); **Nicole Foeger**, Chair, European Network of Research Integrity Offices (ENRIO); **Erich Griessler**, Institute for Advanced Studies, Vienna, & **Núria Saladié**, Project manager HEIRRI at Universitat Pompeu Fabra (UPF)

When: 16:30-18:00, September 18, 2017, (*Europe B, Plenary Hall*)

Abstract: The session aims to present a practitioners perspective to research ethics and the challenges thereof as well as discuss what is being done in other RE/RI related EU funded projects. The session is part of the “heritage programme” of the SATORI projects to discuss what may/should be carried on from its findings to other EU funded projects and how SATORI findings can best be utilized.

Relevant SATORI Deliverables:

Anna Leinonen, Raija Koivisto, Anu Tuominen et al. “[Roadmap towards adoption of a fully developed ethics assessment framework](#)”, SATORI Deliverable 4.3, 2017

SATORI Letter of support:

SATORI Final Conference

Ethics Assessment of Research and Innovation: Looking to the Future

Detailed programme – Parallel sessions, September 18, 16:30-18:00

Parallel session C: Science journalism and ethics of research and innovation

Chairs: Daniela Ovadia & Dino Trescher, European Union of Science Journalists' Associations (EUSJA)

Panel: **Sabine Louet** Editor Euroscientist Magazine, Ireland & **Kathryn O'Hara** Carleton University, Canada, World Federation of Science Journalists

When: 16:30-18:00, September 18, 2017, (*Room Copenhagen*)

Abstract: Science journalists see themselves as the watchdogs of science: they fulfill the same general role that journalism has in a democratic society in the field of science and innovation. Our panel will discuss the role of science journalists as informal ethics assessors, the role of training in fostering the skills of the profession in the field of ethics, their role as promoters of ethical behaviors in science and indirect promoters of societal involvement in the research and development process.

SATORI Final Conference

Ethics Assessment of Research and Innovation: Looking to the Future

Detailed programme – Parallel sessions, September 19, 11:15-12:45

Parallel session A: Standards and best practices for ethics committees

Chair: Rasmus Øjvind Nielsen, Danish Board of Technology Foundation

Panel: **Rok Benčín**, Scientific Research Centre of the Slovenian Academy of Sciences and Arts, Institute of Philosophy (ZRC SAZU). Lead author on SATORI's report on 'Ethics assessment and Guidance in Universities'; **Pere Puigdomènech** Research Professor at the CSIC (Centre for Research in Agricultural Genomics), & **Lidia Borrell-Damián** Director of Research and Innovation, European University Association (EUA)

When: 11:15-12:45, September 19, 2017, (*Room Copenhagen*)

Abstract: The session presents and discusses trends and perspectives on ethical assessment and guidance in universities and other research institutions. The session includes a presentation of findings from SATORI about ethics practices in universities, the SATORI strategy for collaborative development of a common approach to ethics assessment, lessons learned from the process leading up to and following the European Code of Conduct for Research Integrity, and current developments in university strategies for ethics assessment, guidance and management. The session will be open to questions from the floor.

SATORI Final Conference

Ethics Assessment of Research and Innovation: Looking to the Future

Detailed programme – Parallel sessions, September 19, 11:15-12:45

Parallel session B: Ethical assessment and guidance in industry

Chairs: Andrea Porcari, Italian Association for Industrial Research (AIRI) & Agata Gurzawska, University of Twente

Panel: **Kostas Iatridis**, Lecturer in Business & Society, University of Bath School of Management; specializes in Corporate responsibility, corporate sustainability, environmental management, responsible research and innovation; **Kathrine O’Keefe**, Analyst Consultant at Castle Bridge, specializes in Data Governance and Protection, and ethics of R&I in commercial settings; **Lauri Kanerva**, Research Management Lead at Facebook; in-house adviser to executives and researchers regarding research oversight

When: 11:15-12:45, September 19, 2017, (Europe B, Plenary Hall)

Abstract: This session tackles questions related to ethical, responsible and sustainable R&I in the industry context: What does ethics entail for R&I industrial players in relation to compliance with existing laws and beyond? How the concept of responsibility and ethics impact assessment (EIA) could be further embedded in existing R&I practices? What could be the added value of integrating structured procedures for ethics assessment (EI) and EIA in R&I?

SATORI Final Conference

Ethics Assessment of Research and Innovation: Looking to the Future

Detailed programme – Parallel sessions, September 19, 13:45-14:45

Parallel session A: Ethical Impact Assessment – working with the CEN standard

Chair: Wessel Reijers, University of Twente, the Netherlands

Panel: SATORI partners

When: 13:45-14:45, September 19, 2017, (Plenary Hall Europe B)

Abstract: In this session, representatives of the SATORI project will introduce the EIA framework and the standard based on the framework. Attending stakeholders will be asked for input regarding the practicality of the standard in concrete R&I contexts, the usefulness of the standard for helping to identify, evaluate and mitigate ethical impacts in R&I. Additionally, stakeholders will be asked how they see the EIA standard to fit existing regulatory frameworks and how it could be widely promoted to inform best practices in R&I.

SATORI Final Conference

Ethics Assessment of Research and Innovation: Looking to the Future

Detailed programme – Parallel sessions, September 19, 13:45-14:45

- Parallel session C:** **Social sciences and humanities session**
- Chair:** Rok Benčin, Research Centre of the Slovenian Academy of Sciences and Arts
- Panel:** **John Oates**, Academy of Social Sciences, UK; **Michelle Dodson**, Research Councils UK (RCUK), Economic and Social Research Council Policy and Cohorts Cluster, & **Faridun Sattarov**, University of Twente
- When:** 13:45-14:45, September 18, 2017, *(Room Copenhagen)*
- Abstract:** The session will explore ethics assessment in social sciences and humanities (SSH). The methodologies and objects of SSH research imply ethical risks that differ to a significant extent from those in medical and life sciences and therefore require a field-specific approach to ethics assessment. What are the specifics of ethical issues in SSH research and what are the good practices of ethics assessment and guidance in these fields, considering the increasing level of their institutionalisation today? The session will be introduced by a presentation of SATORI findings on ethics in SSH.

Relevant SATORI Deliverables:

Gurzawska, A., Benčin, R., "[Ethical Assessment of R&I: A Comparative Analysis; Annex 2d: Ethics assessment in different fields: Social sciences](#)", SATORI Deliverable 1.1, June 2015
Benčin, R., et al., "[Ethical Assessment of R&I: A Comparative Analysis; Annex 2e: Ethics assessment in different fields: Humanities](#)", SATORI Deliverable 1.1, June 2015

SATORI Final Conference

Ethics Assessment of Research and Innovation: Looking to the Future

Detailed programme – Parallel sessions, September 19, 14:45-15:45

- Parallel session A: Panel on engineering and information sciences**
- Chair:** Göran Collste, Centre for Applied ethics, Linköping University, Sweden
- Panel:** **Britt Östlund**, Full Professor at the KTH Royal Institute of Technology, Stockholm; **Bernd Carsten Stahl**, Professor of Critical Research in Technology and Director of the Centre for Computing and Social Responsibility at De Montfort University; the Chair of the Faculty Human Research Ethics Committee, & **Jeroen van der Ham** University of Amsterdam, Faculty of Science, Mathematics and Informatics Faculteit der Natuurwetenschappen, Wiskunde en Informatica
- When:** 14:45-15:45, September 19, 2017, (*Room Budapest*)
- Abstract:** The panel will discuss ethical issues related to engineering and information sciences, for example, the value of research, ethical challenges and the scientists' responsibility. In particular, the panel will focus on questions of how to protect privacy and "privacy by design", security and the precautionary principle, and the involvement in military research. The panel will also discuss the value and usefulness of the SATORI ethical formwork.
- Relevant SATORI Deliverables:**
Philip Jansen & Agata Gurzawska, "[A reasoned proposal for a set of shared ethical values, principles and approaches for ethics assessment in the European context – Annex 4.1 Standards, tools and best practices for the ethics assessment of innovation and technology development plans](#)", SATORI Deliverable 4.1, 2016
- Parallel session B: Globalisation and Ethics Assessment**
- Chair:** Faridun Sattarov, University of Twente
- Panel:** **Cristina Torres**, Coordinator and member of the permanent secretariat of the Forum for Ethical Review Committees in the Asian and Western Pacific Region (FERCAP), & **Diana Adela Martin**, PhD Researcher at Dublin Institute of Technology, co-founder NGO Link Education and Practice
- When:** 14:45-15:45, September 19, 2017, (*Plenary Hall Europe B*)
- Abstract:** This session will present an international, global, perspective on research ethics assessment. The speakers will discuss the role of ethics assessment in the globalisation of research and innovation and challenges stemming from the impact of globalisation on ethics assessment. The session will also explore how SATORI proposals can make an impact on ethics assessment practices beyond Europe.

SATORI Final Conference

Ethics Assessment of Research and Innovation: Looking to the Future

Detailed programme – Poster sessions, September 18, 18:00-19:00

Poster session:

Potential uptake of SATORI in RRI/Ethics related H2020 projects

HEIRRI (Higher Education Institutions and Responsible Research and Innovation): aims to further integrate RRI within formal and informal education of future scientists, engineers, and other professionals involved in research, development, and innovation processes. To this end, HEIRRI develops, tests and disseminates RRI training programmes and materials to be used at higher education institutions at different educational levels. European Commission, Horizon 2020 (2015-2018)

BODEGA: (Proactive Enhancement of Human Performance in Border Control) aim is to develop future border checks with human factors expertise in order to enhance efficiency, border security and traveller satisfaction. The project focuses on the changes to traveller processes and border controller work due to the introduction of smarter border control systems like automated gates and self-service systems based on biometrics. The traveller is one important actor in the entire process and thus also the traveller's role needs to be carefully considered in the development and implementation of future technologies. In order to gain better understanding of different aspects of border crossing from travellers' point of view, we've conducted a survey that focuses on travellers' experience, opinions and perceptions concerning current as well as future border control. (2015-2019)

ENERI (European Network of Research Ethics and Research Integrity): The project brings together European initiatives involved in research ethics and research integrity and establishes an operable platform of actors in these areas. The network aims at strengthening activities of education and training in research ethics and research integrity, promoting a culture of integrity, and fostering the development of and compliance with joint rules and norms. Moreover, it will be strongly linked to other relevant EC funded projects and thus lead to new collaborations, implementations, and incentives for the European Research Era (ERA) and civil society. European Commission, Horizon 2020 (2016-2019).

MoRRI (Monitoring the evolution and benefits of Responsible Research and Innovation): The project's objective is "to provide scientific evidence, data, analysis and policy intelligence to support directly Directorate General for Research and Innovation (DG-RTD) research funding activities and policy-making activities in relation with Responsible Research and Innovation". The project empirically investigates the impacts of RRI activities covering the six RRI key dimensions (Citizen Engagement and Participation, Science Literacy and Scientific Education, Gender Equality, Open Access, R&I Governance, Ethics) using quantitative and qualitative data. European Commission, Call for Tenders (2014-2018).

NewHoRRizon: (Excellence in science and innovation for Europe by adopting the concept of Responsible Research and Innovation) sets out to promote the acceptance of RRI in Horizon 2020 (H2020) and beyond. It will work out the conceptual and operational basis to fully integrate RRI into European and national research and innovation (R&I) practice and funding. In order to accomplish this goal, NewHoRRizon will establish altogether 18 Social Labs that cover all sections of H2020. Together with a wide-ranging group of R&I stakeholders, in these Social Labs, NewHoRRizon will co-create tailor-made pilot actions that will stimulate an increased use and acceptance of RRI across H2020 and each of its parts. European Commission, Horizon 2020 (2017-2021).
